

In today's digital world, Web Technology is everywhere. This Pathway equips you with the creative and technical skills to design and build modern, user-friendly websites that make an impact.

Whether you're interested in crafting stunning user interfaces (Front End) or powering websites behind the scenes (Back End), this course prepares you for in-demand roles in a fast-growing industry. With hands-on projects and real-world tools, you'll gain the confidence to turn ideas into fully functional web experiences.

WEB DEVELOPMENT & ADVANCED PROGRAMMING
