

Be equipped to tackle the evolving challenges of network security and artificial intelligence through these pathways in AI and Cyber Security.

Cyber threats on Australian networks are an ever-increasing risk. At the same time, the rapid adoption of AI technologies introduces new vulnerabilities and opportunities across all industry sectors. There is currently a significant skills shortage in this highly specialised sector, making expertise in both AI and Cyber Security critical for the future workforce.

ARTIFICIAL INTELLIGENCE & CYBER SECURITY

PATHWAYS LEGEND

- Primary Pathway
- Optional Pathways
- Entry Points No Pre-Requisite
- Entry with Recommendations See Website
- Free or Low Fee

INTRO

6 mths (full time)

Intro to AI Tools: From Curiosity to Confidence Skill Set

Intro to Cyber Security Skill Set

PROGRESS to ONE of these CERTIFICATE III Courses

SKILL BUILDER

6 mths (full time)

ICT30120 Certificate III in Information Technology (Cyber Security) + VETDSS*

Transition to Cyber Skill Set

ICT30120 Certificate III in Information Technology (Network Administration)

PROGRESS to ONE of these CERTIFICATE IV Courses

1 year (full time)

ICT40120 Certificate IV in Information Technology (Data Science and AI)

22603VIC Certificate IV in Cyber Security

ICT40120 Certificate IV in Information Technology (Cloud Networking and Security)

ICT40120 Certificate IV in Information Technology (Networking)

PROGRESS to this DIPLOMA Course

JOB OPTIONS
Help Desk Technician
Junior Network Support

JOB OPTIONS
Introductory AI Engineer
Security Support Analyst
Security Systems
Network Support
Junior Data Scientist

HIGHER SKILLS

1 year (full time)

ICT50220 Diploma of Information Technology (Cyber Security and AI)

PROGRESS to this ADVANCED DIPLOMA COURSE

1 year (full time)

ICT60220 Advanced Diploma of Information Technology (Cyber Security)

NEXT STEP

JOB OPTIONS

AI / ML Support Specialist
Cyber Security Support Officer
SOC Analyst
Cyber Security Analyst
Network / Systems Support Technician
Cloud Support Technician

JOB OPTIONS

Cyber Security Analyst/Architect
Information Security Manager/Analyst
Penetration Tester/Ethical Hacker
Digital Forensics Investigator/Analyst
Network Security Administrator/Analyst

MICRO LEARNING

Bite size learning opportunities to support your career

- Essential 8 Short Course
- Data Analysis Skill Set
- Data Analysis Bootcamp Skill Set
- Cloud Engineering for Intermediate Roles Skill Set

GO TO UNIVERSITY

NMTAFE has a pathway agreement with Edith Cowan University for entry with credit into the Bachelor of Science (Cyber Security) or Bachelor of Science (Cyber Crime, Security and Intelligence) degrees. Awarded credit is equivalent to a study reduction of 1.5 years at Advanced Diploma Level. Credit may be offered at other WA universities.

EXPLORE RELATED INDUSTRY AREAS

- Government and Defense
- Telecommunications
- E-commerce and Retail
- Education and Research
- Legal and Compliance

TRANSFERABLE SKILLS TOWARDS YOUR DYNAMIC CAREER

- Analytical & Problem-Solving
- Risk Assessment
- Ethics, and privacy in ICT environments
- Advanced Computing
- IoT Knowledge

CAREER PROGRESSION

- AI-driven threat intelligence
- Machine Learning Engineer
- Project Manager
- Analyst
- Senior Architect
- Risk Manager
- ICT Security Manager
